

Mchine model	colorse	head	head space	X area	Y area	Length	Width
TPJ-H904/550-500-500	9	4	550	500	500	4410	1700
TPJ-H908/550-500-500	9	8	550	500	500	6610	1700
TPJ-H9012/550-500-500	9	12	550	500	500	8810	1700
TPJ-H9016/550-500-500	9	16	550	500	500	11070	1700

Optional Device Can choose 9/11/18/22 for one head;Can be customized head distance,X/Y word are;Round and special-shaped film of 5mm or below can be optional;Larger circular and special-shaped film can be customized.

Machine function The maximum speed is 1000rpm, with low noise and low vibration of high speed operation effect,stable and durable body;It has the unctions of one-button penetration and inching out, Active tablet feeding function;niasiahe Facetion oPalfer Mate netic and repairing embroidery, It has the function with the detectionfunction of missing pieces, and can continue to ironing the remaining pieces, reduce waste.The service life of the whole machine can reach more than 10 years;Machine high precision positioning pin hole installation process, head distance and X/Y positioningaccuracy up to 0.05mm.Servo high precision, light weight embroidery trame drive system,can meet the needs of high speed and high quality ironing.

Application This series of models are mainly used for various kinds of garment cutting pieces,industrial proofing, home textile, home decoration, handicrafts, etc.

Quick Detail:

1.Embroidery machine, industrial embroidery machine, computerized sequin machine, machine embroidery, embroidery machines, Automatic hot fix sequin punching machine

Description:

Machine high precision positioning pin hole installation process, head distance and X/Y positioningaccuracy up to 0.05mm.Servo high precision, light weight embroidery trame drive system,can meet the needs of high speed and high quality ironing..

Applications:

This series of models are mainly used for various kinds of garment cutting pieces,industrial proofing, home textile, home decoration, handicrafts, etc.

Competitive Advantage:

The maximum speed is 1000rpm, with low noise and low vibration of high speed operation effect,stable and durable body;

It has the unctions of one-button penetration and inching out, Active tablet feeding function;niasiahe Facetion oPalfer Mate netic and repairing embroidery, It has the function with the detectionfunction of missing pieces, and can continue to ironing the remaining pieces, reduce waste.The service life of the whole machine can reach more than 10 years;
